

# Heavenly, Lost in Your Eyes

I've been waiting so long  
Bring the past and turning forward  
Can you hear me calling you on and on  
Our love break my loneliness

In my quest no way to get back  
Still brave I'll find her at last  
Can you hear me calling you on and on  
Our love leading the way

Ride ride ride across the pitfall  
Ride ride ride just screaming loud  
Ride ride ride watch out of evil  
So many things to give you with enough time

Fly, fly so high  
Float in the wind  
Somewhere for you and I  
Close to you I am getting  
Lost in your eyes

Light up the sky  
Cling to your dreams  
Forever begins tonight  
I come alive when I am  
Lost in your eyes:  
Lost into you eyes

Solo: Corbiaux / Lapauze
