## Heavens Gate, On The Edge

[Music:Rettke/Paeth/Hunecke - Words: Rettke]

Foreign body in sliced worlds of fashion We can stand our ground We don't run with the pack We don't fit, we're no blank piece of puzzle There's no file we're in and we fight back to back

[BRIDGE:]
So close, so far away
Your mind is taking chances
But now we're back to stay
We're on the top, we're flying high

[CHORUS:] We're on the edge higher and higher We're on the edge

We don't live in a permanent passion Never even prepared for What's in and what's out There's a way left behind burning bridges

We'll there fighting back And there's no doubt about

[BRIDGE / CHORUS]

We are back, we are on our way now And the permanent power is cracking your brain

[BRIDGE / CHORUS]
