(lyrics: kverd)

Smutn dun Zem, sm poslouchm ten sten.  
U nelze dchat vc, pod mohutnm ledu pikrovem.  
Vyschl torza kmen, ty slit vidl jsem.  
Ve pevn uzaven, do tyech neprodynch stn.

Ledarium - vdzt' nectm bt svoje srdce.  
Ledarium - hav kdzs ohen nyn mráz.  
Ledarium - chci sevt ten plamen ve sv ruce.  
Ledarium - uvznni neoblomnou hrz.

Odvreni svtem, co odklonil se z cest.  
Ten svt kdys byl nm vm, nyn zahlcen morem mst.  
Ulapni dobou, nm vd za svj zrod.  
Bez bzn, hany se daj, pes nae tla na pochod

(English)

Sadly shakes the Earth, I myself listen to the moan.  
It is ont possible to breath any more under the mighty cap of ice.  
Dry torsos of trunks, I saw them grow stronger.  
Everything closed tight in four hermetic walls.

Ledarium - I do not feel my heartbeat.  
Ledarium - once glowing fire is freezing now.  
Ledarium - I want to clasp the flame in my hand.  
Ledarium - stuck behind a strong barrier.

Being spurned by the world that has deflected from its path.  
The world used to mean everything to us, but now it is flooded with plauge of towns.  
Trampled by time, they owe their origins to us.  
Without fear, without shame, they set out on a march over our bodies!
