

Heideroosjes, B 4 U Wake ... Die!

It's no lie, I say it right in your face
The time has come no place for disgrace
I'm sick of all the lies that you tell
So take a deep breath and wake up in hell

Before U wake...die! <i>[4x]

Money and power is all you care about
You don't wanna hear the people that shout
Crying and dying and have no food to eat
You commit the crime but they have to bleed

Before U wake...die! <i>[4x]

The day will come I'm sure it will be
That power is death and they will be free
Peace, love and unity is the best dream
But until that day the people will scream

Before U wake...die! <i>[4x]
