

# Heideroosjes, Buckle Up!

Buckle up to take the ride of life  
Hold on tight to see what I've  
It might get rough, it might get dirty  
Speed goes up, twohunderdthirty

Buckle up you might need some help  
The lessons of life are things to develop  
There might be joy, there sure is sorrow  
Gain strength today to face tomorrow

Buckle up make sure it's locked  
The road is long, it could be blocked  
Brakes don't work always in time  
Drive by a roadmap you can't divine

Buckle up you might need some help  
The lessons of life are things to develop  
There might be joy, there sure is sorrow  
Gain strength today to face tomorrow
