

Heideroosjes, Can't Stand Your Face

Best bother me another day
Can't stand your face today
I don't hate you, you're quite ok
can't stand your face today
It's not your fault, it is with me
Can't stand your face today
If you don't go, I won't stay
can't stand your face today

Most days a year, it's not an issue
Come on, complain, before I miss you
today I just want, to be left alone
Solve your own shit, you are on your own

Best bother me another day
Can't stand your face today
I don't hate you, you're quite ok
can't stand your face today
Solve your problems without me
Can't stand your face today
Not even if you were JFK
Can't stand your face today
