

Heideroosjes, I Can't Change The World

You tell me to conform but I won't
You tell me to shut up but I don't
You tell me it doesn't make sense
To me there is more than hanging out with friends

(CHORUS)

I can't change the world
But you'll hear my voice

Don't you think I see it's a mess?
Don't you think I hate all this stress?
Why don't you stand up and fight
I won't say it help but it might

It seems I stand alone in a crowd
But I continue to open my mouth
If people don't talk anymore
They have started a new useless war
