

# Heideroosjes, Inside My Head (You're All Dead)

Sun is shining on my head, but it's a rainy day  
I'm just walking around and I got nothing to say  
I feel so weird but I'm not even drunk  
Everybody looks great, everybody but

(Chorus)  
Nobody knows what's inside my head  
Inside my head, you're all dead!  
Nobody knows what's inside my head  
Inside my head, I wish you were dead!

All these kids act cool, they call me a nerd  
But it's my lucky day, today I can't get hurt  
They spit me in my face, yeah, the joke is on me  
Please, do it again, I don't mind because

(Chorus)

This naggin' it still continues, it just won't stop  
So I keep on smiling, until they drop  
My eyes wide open, head up in the air  
Everybody looks great, everybody but

(Chorus)

There will be a day, I'm sure that time will come  
No goddamn bully has the guts, to call me dumb  
All these kids will fear me, they'll act as I will  
Get them on their knees, this is my game
