

# Heideroosjes, Mommy Help!

Mommy help, protect me from reality  
Tell me it's a dream about bestiality  
Mommy please, just one more bedtime story  
In which the good guys have the glory

(CHORUS)

Mommy is it really true? All these cruel things we do  
Will I do such things when I am full-grown?  
Will you protect me or am I in this alone?

Daddy, you're the strongest man on earth  
Held away the demons since my birth  
But outside in the streets, those demons are the law  
And I can't find your stories' heroes anymore

(CHORUS)

Daddy is it really true? All these cruel things we do  
Will I do such things when I am full-grown?  
Will you protect me or am I in this alone?

Daddy, today someone told me, many men are stronger than you  
Mommy, today someone told me, not all your stories are true
