Heideroosjes, Then All Hell Breaks Loose!

Who dares to dance
On the edge of a ravine?
What's happening
In the dark of our brains?
Misery drags you with it
Over all borders
A fatal alliance
But in chaos everyone's on it's own

Then all hell breaks loose

Friendship by destiny
A pact with evil
In a case of madness
Everybody's too late
Hear the scream
In the darkness
Who finds compassion?
In the power of doom?

Then all hell breaks loose

Then all hell breaks loose
Does pain win from sense
Chaos is born
Then all hell breaks loose
Chaos is born
