

Heideroosjes, Watch Me Play

It's not about the glamour, not about the chicks
It's just about this feeling, just about these kicks
It's not the sale of records, not me the shining star
They're just my ways of living, my passions as they are

Watch me play, I just know a few chords on my guitar

It's not about the drugs, not about the booze
just about rock 'n roll, the energy I use
It's not about the make up, not about being cool
It's all about surviving and music is my tool

Watch me play, I just know a few chords on my guitar
Hear me sing, I just sound like Dylan with a too tight bra

It's not about the glamour, not about the chicks
It's just about this feeling, just about these kicks
It's not the sale of records, not me the shining star
They're just my ways of living, my passions as they are

Watch me play, I just know a few chords on my guitar
Hear me sing, I just sound like Dylan with a too tight bra

It's not about who you are, it's all about what you do.
It's not about what you do, it's all about who you are
