

# Helena Paparizou, Don't Hold Back On Love

Tonight  
I'm gonna hold my breath  
I see the light  
Over the edge  
There's something, I feel it and it's in the air now  
I hear the clock and it's ticking and it's getting so loud

Let's don't hold back  
Don't hold back on love  
Don't hold back, what we need more of  
We can shine through the night  
Up to the satellites  
Let's don't  
Hold back on love

It's time  
So take my hand  
You're heart in mine  
The promise land  
Oh pour gasoline make the flame get higher  
Oh make me believe in love and desire

Let's don't hold back  
Don't hold back on love  
Don't hold back, what we need more of  
We can shine through the night  
Up to the satellites  
Let's don't  
Hold back on love
