

Helena Paparizou, If You Believe Me

You came into my world
And spinned me round n' round
You took my breath away
I fell n' hit the ground
I looked into your eyes
And put my life in your hands

That you must do the same
So put your trust in me

Don't let this chance pass by you now
Lets come together I'll show you how
I'm prepared, but are you willing to try?

Come let me tell you

If you believe me
Then you will see that
I'm not trying to tear this feeling apart
So please believe me
I'm lost without you
So come and undo
What's been done to my heart

If you believe me
Then take a chance to fly away
Lets make a brand new start
Forever more and on and on
Take my hands I'll lead you there
If you believe me

Come closer to me now
And kiss me one more time
Lost and don't know what to say
I wish you read my mind
I can feel it deep inside
I hope you feel the same
Take my hand and we'll leave
You just have to believe

Don't let this chance pass by you now
Lets come together I'll show you how
I'm prepared, but are you willing to try?

Come let me tell you

If you believe me
Then you will see that
I'm not trying to tear this feeling apart
So please believe me
I'm lost without you
So come and undo
What's been done to my heart

If you believe me
Then take a chance to fly away
Lets make a brand new start
Forever more and on and on
Take my hands I'll lead you there
If you believe me

If you believe me
Then you will see that
I'm not trying to tear this feeling apart

So please believe me
I'm lost without you
So come and undo
What's been done to my heart

If you believe me
Then you will see that
I'm not trying to tear this feeling apart
So please believe me
I'm lost without you
So come and undo
What's been done to my heart (If you believe me)

If you believe me
Then take a chance to fly away
Lets make a brand new start
Forever more and on and on
Take my hands I'll lead you there
If you believe me
