

# Helium, Baby's Going Underground

Baby, I saw they kicked you down  
Now you're the only dirty trick in town  
The stars are bright under your nightgown  
A star is bright, a star is round

Maybe someday we'll get back, get back  
The rock life and the heart attack'  
Baby likes it when it hurts like that,  
A millions days after the, after the fact.

Baby is going underground  
With the whip and trix you found  
The moon is bright when you're bound  
The moon is bright, the moon is round.

And maybe some day we'll get back, get back  
The rock life and the heart attack'  
Baby likes it when it hurts like that  
A million days after the, after the fact.
