

Hell Is For Heroes, Kamichi

Trusting in our machine,
We head for oblivion.

[Chorus:]
Raising the first alarm
Red light,red light
This is a warning sound
Red light,red light...

There's a haze coming down
Upon us.
Every tribe for themselves
United in chaos.

[Chorus]
Invading force alert
Sirens wailing
Air raiders in the sky
Circling...

Raising the first alarm
This is a warning sound [x2]

Now the power's out,
All that I can see
Is the gleaming white
Of your retina.
Light the path for me,
Blaze the trail again,
Lead the exodus
Back inside the cage...

[Chorus]
Invading force alert
Sirens wailing
Air raiders in the sky
Circling...
