

Hella, Soundtrack To Insecurity

Welcome to the unavailable
The death of your ideas should not be feared

Do you hold the hand of blasphemy?
Through sickness and through health
Dancing to the soundtrack of insecurity is commonwealth

You don't know me like you think you do
You don't know me like you think you do
You don't know you like you know you don't

His lies are written in the stars
Intellect won't get you anywhere
Assassinate your friendship with the world
Words are not artificial they are blind

Camouflaged in white light
You're gonna know infinity tonight

ALLRIGHT!- let's bury ourselves in the distance
WE'RE POLARIZED- let's conquer our demise
ALLRIGHT!- let's bury ourselves in forgiveness
WE'RE POLARIZED- God's gift to God has no eyes
IT'S HIGHER THAN HIGH
IT'S HIGH AS YOU TRY

Camouflaged in white light
You're gonna know infinity tonight

Your lies are written in the stars
Intellect won't get you anywhere
Assassinate your friendship with the world
Words are not artificial they are blind

You don't know me like you think you do
You don't know me like you think you do
You don't know you like you know you don't

Do you hold the hand of blasphemy?
Through sickness and through health
Dancing to the soundtrack of insecurity is commonwealth
