

# Hellcopters, On Time

Always gonna be here with you  
Till the day that you die  
Wrapped up in an institution  
Asking me why I can be at service  
But mostly I just make you nervous  
But you know that I would never lie  
I'm day, night, right, some or any  
Expensive luxury  
One, two, three, for all or many  
Scars in cheap hits  
I breed anticipation  
I don't do negotiations  
And I might even deceive  
I'm on my way  
And I never wait  
I always get by  
I'm the contrary picture  
And on time  
You're always gonna face me  
For sure or even in doubt  
At one point or another you'll do your best to  
Always being present  
I'm senile and adolescent  
You know I'll make you whimper and shout  
I'm on my way  
And I never wait  
I always get by  
I'm the contrary picture  
And on time
