

Helldorado, Roadhouse

You will find me in the roadhouse
Six miles down the highway
Track me down there, my little angel
Before all hell breaks loose

You will find me in the whorehouse
Cross the street from where I live
Track me down there, my little angel
Before all hell breaks loose

Before the fire starts
Before the fire starts

You will find me by the river
Near the falls I stand and shiver
Track me down there, my little angel
Before all hell breaks loose

Before the fire starts
Before the fire starts

You will find me in the roadhouse
Six miles down the highway
Track me down there, my little angel
Before all hell breaks loose
