

# Hellogoodbye, All Time Lows

Whether or not the weather is on my side  
we could be together if I stay bright eyed  
I can feel the summer sending signs of fall  
I see a happy ending if I stand up tall

Whether or not this cold front is moving in  
or its just vacation and we'll soon be friends  
I know I can't avoid her shes in the air  
may as well polaroid her with the way I stare

ooo, Tonight the stars are so bright.  
I've gotta get outdoors while the weathers still here  
I've gotta take in the starlight before it disappears  
a chance lasts a finite time in the cool July night time  
so take in all you can

Whether or not our season will soon be done  
I think I've got a reason to enjoy the sun  
I hear the forecast ain't as bad as it seems  
it should be clearing up soon if only in dreams

ooo, Tonight the stars are oh so bright.  
I've gotta get outdoors while the weathers still here  
I've gotta take in the starlight before it disappears  
a chance lasts a finite time in the cool July night time  
so take in all you can

I've gotta get outdoors while the weathers still here  
I've gotta take in the starlight before it disappears  
a chance lasts a finite time in the cool July night time  
so take in all you can
