

# Halloween, Paint A New World

We all know the feeling, it's frightenin' sometimes  
When we catch the news on the radio  
Death, war, destruction, limitless pain  
All the tears that have been cried

Time is running, years gone by  
No one to break the silence  
What we do is what we get  
We harvest what we've sown

Poles are melting, holes in the sky  
Woods are on fire  
Scary pollution, our world's gonna die  
Look what we do  
It's madness

I paint a new world  
Colours of magic are brightenin'  
Paint a new world  
Moon, sun and stars are risin'  
I paint a new world  
Magical brushes will lighten  
A tame new world  
Earthwind, fire and sea

I hear all those voices, I see all the signs  
Of killing, rape, forced conformity  
Hedonism, decay, deaf, dumb and blind  
Where do we go from here?

Time is running, years gone by  
No one to break the silence  
What we do is what we get  
We harvest what we've sown

Who will wage the next few wars  
Wreak havoc on the masses  
Politics, religion soaked up with lies  
See what we do?  
It's madness

I paint a new world  
Colours of magic are brightenin'  
Paint a new world  
Moon sun and stars are risin'  
I paint a new world  
Magical brushes will lighten  
A tame new world  
Earthwind, fire and sea

Poles are melting, holes in the sky  
Woods are on fire  
Scary pollution, our world's gonna die  
Look what we do  
It's madness

I paint a new world  
Colours of magic are brightenin'  
Paint a new world  
Moon sun and stars are risin'  
I paint a new world  
Magical brushes will lighten  
A tame new world  
Earthwind, fire and sea
