

# Halloween, Still We Go

In the beginning  
Out of nowhere  
We had a dream  
And Now It's Halloween

Speed up to a higher limit  
Change gear, we're losin' our spirit  
We won't take your special advice  
We are close to a metal breakdown  
Sirens to warn of our meltdown  
We couldn't see that headline

Now we can see a horizon  
We're gonna be here to stay  
If you cannot see our sign  
You must be blind

Still we go  
Still we go  
Still we go  
On the metal highway  
Still we go

Warn out, won't die on our knees  
Shine on, proud as we can be  
Time has come to stop pleasing you  
Hey man, Let's get it together  
Our strength will last forever  
Push us as far as we can go

Now we can see a horizon  
We're gonna be here to stay  
If you cannot see our sign  
You must be blind

Still we go  
Still we go  
Still we go  
On the metal highway  
Still we go

[SOLO]

How many times must a man cross the lines  
To find his right way

Still we go  
Still we go  
Still we go  
On the metal highway  
Still we go
