

Hellraiser, Remembering

it seems I saw it all before
so many centuries ago
the ancient terrors creep behind me

what a f**k is that - I cry
horror possessed my mind
but I know it was for real
this is not a dream

I can see
burning sky
no mercy

I can recall how I was killed
on scaffold high my blood was spilt
the hangman raised a deadly sword

what a f**k is that - I cry
someone slashed my mind
but I know it was for real
this is not a dream

inquisition -
holy mission
mass extinction
terrors come alive
out of old times

burn in my mind

I can see
burning sky
no mercy

inquisition -
mass extinction
out of old times
inquisi1ion -
holy mission
mass extinction
terrors come alive
out of old times
burn in my mind

inquisition -
mass extinction
out of old times
inquisi1ion -
holy mission
mass extinction
terrors come alive
out of old times
burn in my mind
