Helltrain, Tombstone

Slowly wake to face another day Hell, I can't escape Can someone tell me what is going on? Working for pennies, singing a song

(Chorus:)
Like in wasteland
Eyes cold dead buried and gone
And i don't want it
No more than moving to Tombstone

Someone told me only death is real Well...what the fuck do I feel? Like this would be a fairytale? This life is fucked-up, can you tell?
