

# Helmet, Surgery

There are things you never know  
you need removed before  
You think too much, you feel, you touch  
Just cut 'em out for good

Well put me under know  
Knock me out

Are you safe?  
Are you sound?  
Are you living in fear now?  
Are you scared?  
Are you falling?  
Can you feel at all are you scarring now?

The false alarms you knew before  
You were surgically reformed  
You turned it all around  
You knocked them out

Are you safe?  
Are you sound?  
Are you living in fear now?  
Are you scared?  
Are you falling?  
Can you feel at all are you scarring now?

Are you falling now? 'Cause I can help you down  
Now you see how it feels

Are you safe?  
Are you sound?  
Are you living in fear now?  
Are you scared?  
Are you falling?  
Can you feel at all are you scarring now?
