

# Helmut Lotti, Hold Me Tight

"Hold me tight I need you to stay  
With me till the morning light  
Hold me tight and don't go away  
For this is a magic night

We both knew this moment had to come  
Right from the start  
And my mind's been beaten by the beating on my heart  
Darling tell me why there's an angel like you  
You have made me fly to a heaven so blue

Lying with your head on my chest  
You must hear a heart that sings  
How I pray this moment will last  
Who knows what tomorrow brings?

Now you gave me everything that I have been  
Dreaming of  
How can I survive without your warm and tender love?  
Darling tell me why there's an angel like you  
You have made me fly to a heaven so blue

Hold me tight I need you to stay  
Forever, so hold me tight  
Hold me tight and don't go away  
'cause after this magic night  
I cannot be the man  
That I was before  
For you made me want more  
So darling hold me tight!"
