

# Hercules and Love Affair, Easy

We all share the light  
It is so freely ours  
I say my friend  
Sun come down easy  
Sun come down easy

I am not a fisherman  
But I do know the sea  
I say my friend  
Waves come down easy  
Waves come down easy

The clouds that hang above  
They nourish, they feed  
I pray my friends  
Rain come down easy  
Rain come down easy

There is a rhythm  
She plays her drums her songs  
I pray my friends  
We must go easy  
We must go easy

Walk, walk slowly, don't run  
There is no where to get to  
Walk, walk slowly don't run  
Stay with your family

This day she gives us  
It is a gift  
Honor your family

This day she gives us  
It is a gift
