Herman's Hermits, I Can Take Or Leave Your Lov

I don't need her Don't need her kind of heartache and pain She's gonna have to see Things now can never be the same again

I won't miss her Well, maybe I'll miss her once in a while She thinks I'm gonna die Now that she's said goodbye But she's so wrong Her eyes just smile

Baby baby, don't you believe it? When it comes to your lovin', I can take it or leave it Baby baby, don't you believe it? When it comes to your lovin', I can take it or leave it I can take or leave your lovin' I can take or leave your lovin'

I'm not sorry I still think we're better apart She says she's gonna see A day when there's gonna be a change of heart

Baby baby, don't you believe it? When it comes to your lovin', I can take it or leave it Baby baby, don't you believe it? When it comes to your lovin', I can take it or leave it I can take or leave your lovin' I can take or leave your lovin'
