

# Hey, Delusions

It's stuffy here  
But my window is closed  
I'm drinking wine  
And I'm scared to the bones

Woman in white dress  
Stands outside  
I know so good her name

Things went dark  
Right before my eyes  
I hear She's coming

Hello! Can You help me!

Hello my dear  
My name is dead  
Don't be afraid  
Would you mind if I smoke

You've got five minutes  
To pack your clothes  
Then we are leaving

You have a right  
To make one phone  
But then we are leaving

Hello! Can You help me!
