

# Hey Monday, Arizona

It took two days  
For me to figure out  
This isn't working out  
But I lost my way  
I drove all night  
Just to be with you  
But you weren't worth the view  
I've gotta hit the breaks  
Now you know  
Get up and go

Arizona Arizona  
A car wreck on the highway  
Now you're burning by the side of the road  
Arizona Arizona's  
A million miles from Florida  
Now your history  
I'm stranded, get me out, I'm going home

Deep in your soul  
Lies a lonely heart  
That only ever pumps  
For you alone  
And I can't relate  
So I gotta leave you here  
I can breathe without you, dear  
Just start walking away  
Now you know  
Get up and go

Arizona Arizona  
A car wreck on the highway  
Now you're burning by the side of the road  
Arizona Arizona's  
A million miles from Florida  
Now your history  
I'm stranded, get me out, I'm going home

Tell me  
How does that feel  
With a grand canyon  
Between me and you  
Tell me  
How does that feel  
To see me waving goodbye

It took two days  
For me to figure out  
This isn't working out  
I've gotta hit the breaks

Arizona Arizona  
A car wreck on the highway  
Now you're burning by the side of the road
