Hi-Fi, Don't Give Up

I just want to know

Why forget it? Why not get another road?

Don't give up Baby, don't think about it Don't give up I've been in Don't give up Baby, forget about it Don't be fooled I've been in

Together we'd get a trouble, trouble get in us And never talk with us, and never fuck with us

And never talk with us, and never fuck with us Look around what you've done! Ha I sing, just better get out Get a look around what you've done! Ha Mama said, just fuck you out Mama said, just fuck you out

Don't give up Baby, don't think about it Don't give up I've been in Don't give up Baby, forget about it Don't be fooled I've been in

Don't be lied to Don't be fooled Don't be lied to Don't be fooled Don't be lied to Don't be lied to Don't be lied to Don't be fooled I really want to know

Don't give up Baby, don't think about it Don't give up I've been in Don't give up Baby, forget about it Don't be fooled (just) I've been in
