

Hi Standard, Stay Gold

my life is a normal life
working day to day
no one knows my broken dream
I forgot it long ago
I tried to live a fantasy
I was just too young
In those days you were with me
the memory makes me smile

(chorus)
I won't forget
when you said to me "stay gold";
I won't forget
always in my heart "stay gold";

it was such a lonely time
after you were gone
you left me so suddenly
that was how you showed your love
now I see the real meaning of your words
they showed me the way to laugh
though your way was awkward

(chorus)
