

Hi Standard, Teenagers Are All Assholes

Teenagers are all assholes x4

Let's not kill with knives so easily
Society's gift to the world
There is no good reason to hurt somebody
If you wanna stab something, stab your heart
Listen up boys take it easy
There's a place for you somewhere
It's probably right in front of you
Find it yourself
Open your eyes

Teenagers are all assholes x4

Don't torment your friends and neighbors
Someday you'll see you are small
There is no good reason to assault somebody
If you wanna beat someone, beat yourself
Stress can give you good energy
Stress can be lots of big fun
Are you really running on your own rail
Find it yourself
Open your eyes

Teenagers are all assholes x4

The news on TV's f**kin' disgusting
What's the reason for this depression
Should the economy depress our hearts
I found it
Open your eyes

Teenagers are all assholes x4
