

Hi-STANDARD, The Sound of Secret Minds

Learn and work and love someone
Oh, getting older and tired
You think your life cannot be like this
But seasons pass by
What are you waiting for?
Can you hear the sound?
Your soul needs rescue

Listen, the sound of secret minds
A tiny voice inside your heart
A precious thing you should believe
This is pure and true

I can hear the sound in your mind
Oh, it the sound of secret minds
It is the one you used to hear
When you were a little child
Why don you do it? Why can you say it?
Your soul needs rescue

Listen, the sound of secret minds
A tiny voice inside your heart
A precious thing you should believe
This is pure and true

Let your heart beat for the world
Your heart beating, alive and beating
Your heart is still beating loud and clear

Listen, the sound of secret minds
A tiny voice inside your heart
A precious thing you should believe
This is pure and true
