

Hicks Taral, Don't Let The Feeling Go Away

Don't let the feeling go away, don't let the feeling go away.

Verse 1: Here in the dark together, loving you so sweet. There ain't no place I'd rather be (no). Baby it feels like heaven, never felt like this, I'm crazy for your kiss. Please tell me not to worry, cause you know I do. I just wanna stay here with you, ohh..

Chorus: Don't let the feeling go away, don't let the feeling go away. Tell me the loved that's shared oh won't ever change, promise me you'll always stay. Don't let the feeling go away, oh, don't let the feeling go away.

Verse 2: I've never been so happy, your sweet love is mine today, and cause of you I feel so free. Oh, cause I've seen some bad things happen, others lie and cheat. A friend, becomes an enemy. Let's try to stay together, and treat each other right. Gotta keep the fire burning all through the night.

Chorus: repeat (fade out) Don't let it go...
