

High And Mighty Color, Suiren

Just like drawn into the darkness.
I sleep with your feeling left my body.
It's not still enough. Tell me someone,
is there any meaning in the world without my love.

I wish this body could cut up.

kogoe souna yoru no hate ni
anata wo kasanete yorisou

(All too tough new world.)

(At the place no one really knows.)

shimikomukono kono karada wo hanasanai de

(At the place no one really exist.)

The cold wind is blowing outside.

I can't stand this cold without your warmth.

Where I can go with this empty body.

Just memories stay in my heart.

(I might left my heart.)

The room is too big to live without you.

Have no words for the grief inside of me.

Can't resist my desire of this love.

Have no words for the pain inside of me.
