

Higher, Insurance?

Let's keep the fire tame but we'll keep our hands hot

I cannot get that ace so let me see a face card drop

We can play the field, if it feels right

Or we can spin the wheel and roll the dice for midnight

All that matters to me girl, win or lose

Is an x-rated complete swirl of me and you

So if you want to see the show, just come with me baby

I will show you how I roll

Let's burn this filthy town straight into the ground with our dirty looks and glances

Come on, can you hear us now, as we rock you, shock you, drop you, and make you want it more?

And we're gonna risk it all for the weekend

Cause I've been needing this time off and everybody's drinking

You get excited, you can't hide it when you hit the floor

The after party won't get started till bout three or four

So when you see me from across the room, girl you know what to do

Can you get me in the mood?

Let's burn this filthy town straight into the ground with our dirty looks and glances

Come on, can you hear us now, as we rock you, shock you, drop you, and make you want it more?

Let's burn this filthy town straight into the ground with our dirty looks and glances

Come on, can you hear us now, as we rock you, shock you, drop you, and make you want it more?

I'll make you want this

And make you want it more

You keep on suckin' me, suckin' me in

To make me want it more

You keep on suckin' me, suckin' me in

Let's burn this filthy town straight into the ground with our dirty looks and glances

Come on, can you hear us now, as we rock you, shock you, drop you, and make you want it more?

Let's burn this filthy town straight into the ground with our dirty looks and glances

Come on, can you hear us now, as we rock you, shock you, drop you, and make you want it

Rock you, shock you, drop you, and make you want it

Rock you, shock you, drop you, and make you want it
