Highlord, We Are Gods

[Music:Alessandro Muscio - Words:Stefano Droetto]

The Prophecy was right I know it for all the tears I cried How can we face this day? The pillars of fate are falling down

Help me to see If there's a reason to believe If there's a place for you and me.....

Oh Oh Day by day we lose our faith Lords of the World we won't protect you Crossing the mysterious line

The gift of Creation makes us Divine We won't come back this time Don't wait for us we're far away. To conquer what the time denies (We're) growing stronger, (we're) goin' insane! Back from the past will rise Someone to fight what we became

Help me to see If there's a reason to believe If there's a place for you and me.....

Oh Oh Day by day we lose our faith Lords of the World we won't protect you Oh Oh Step by step we reach the Sky We are the Gods of nonentity!
