

# Highwater Rising, Kissing Tree

If you think that  
it would bother me  
to watch you  
walk around with her  
see you sitting in  
your kissing tree  
and should the worst occur  
while you're climbing high  
and you won't look down  
cause this branch can't hold your weight  
and the leaves that fall  
won't catch you if it break  
all I'm saying is  
climb cautiously  
but don't do it for me  
don't do it for me  
if you're looking for reaction  
a sign a cry for help  
you won't find it  
in her weakness  
you'll find it in yourself  
but you're climbing high  
and you won't look down  
cause this branch can't hold your weight  
and the leaves that fall  
won't catch you if it break  
but I never thought you could be  
so different from me  
so different from me
