

Highway 101, Change

Been a long time lonely grown set in my ways
No eye for tomorrow just a chain of yesterdays
You were the first time I knew where I stood
Now I walk a new line and I think the change is gonna do me good
Gonna suit me fine bring me back again it's just a matter of time
Gonna play my cards right gonna knock on wood
I know what it's coming and I think the change is gonna do me good

Stone cold sober in the broad daylight downtown dancin' on a Saturday night
Just thinkin' about you makes me feel alright
It's the way that you love me the way that you love me
[guitar]
Stone cold sober...

Your love is a shadow across all my dreams
I wake and want you and your face is all I see
No words have been spoken it's all understood
My heart is wide open and I think the change is gonna do me good
Gonna suit me fine...
Gonna suit me fine it's just a matter of time
