

Highway 101, (Do You Love Me) Just Say Yes

If I came by 'round nine tonight
Baby, doubt would it be all right
I've got it bad boy
I must confess
Tell you now honey would you mind
If I took your hand in mine
Could I hold you
Just say yes

C'mon, it's on the tip of your tongue
So easily done
Such a small request
Oh babe, you got something to say
Don't keep me waiting
Don't make me guess
Oh do you love me?
Just say yes

You don't have to go on and on
'Cuz you know what I really want
And that's your love
No more, no less
There's only one thing I need to hear
When you whisper in my ear
And that's one word
Just say yes

C'mon, it's on the tip of your tongue
So easily done
Such a small request
Oh babe, you got something to say
Don't keep me waiting
Don't make me guess
Oh do you love me?
Just say yes

Do you love me?
Just say yes
