

Hikaru Utada, Easy Breezy

I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japanesey
Soon you'll mean exactly nothing to me
And that means
You look stupid, telling all your friends how you got the best of me
I intended to share the pleasure only
Now I look stupid, we're living in a world with a lot of pressure
It's quite unneeded to put more pressure on me
You came and went and left my house like a breeze just passing by
Hello goodbye you left a note saying it was nice stopping by
I should have never ever let you inside
I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japanesey
Soon you'll mean exactly nothing to me
Does that mean anything to you?
Easy breezy, do you whistle to hide that you're feeling lonely ??
How do I breathe with all this pressure on me?
Easy breezy, when you wrettle you know that you hurt somebody
How do I breathe with all this pressure on me?
You came and went and left my house like a breeze just passing by
Konnichiwa sayonara it was nice of you to stop by
Would it amuse you if I told you that I
I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japanesey
You're easy breezy and I'm Japanesey
She's got a new microphone...
