

Hilary Duff, Let Me Know

[Spoken:]

Sometimes I can't explain
Feelings that are felt inside
But I just can't complain
About things that don't bother me

Confused
It's a feeling we all feel
You either give up or deal
But whatever you feel
Let me know

(Chorus)
Let me know when the rain will fall
Let me know when the oceans will flood
Let me know when I'll feel pain inside
Let me know when I'll wander away
Let me know when the ground will crack
Let me know when the seas will roar
Let me know all the things that I'll feel inside
Let me know. . .when you're gonna love me

When you're gonna love me

These feelings I have for you
You may never get to know
All these games inside
You may never get to play
But I know
If it's meant to be
We will be together
Maybe even forever

(Repeat Chorus)

Inside
Don't hide
You'll find you'll love me
But if you don't hurry
I might be gone

(Repeat Chorus x2)

Love me. . .
Inside. . .
