

HIM, Endless Dark (616 Version)

Softly the light shines in through
The gates of Grace on me and you
Deceiving our restless hearts
A flickering flame so serene
Devours the night so we could see
The fear we hold on to so strong

Ooh
But I know where I belong
Right and wrong
So shine on me and light this Endless Dark

Ooh, Shine on me and tame my burning heart
Yeah, so I can find my way back into your arms

Lonely the light shines on you
Through the gates of fire entombed
Receiving your trust no more
Weak is the blaze that kept me away from cruelty and tenderness embraced
Saving my soul no more

And I know where I belong
Weak or strong
Darling, shine on me and light this endless dark

Ooh, Shine on me and tame my burning heart
Yeah, so I can find my way back into your arms
Ooh, Shine on me and light this endless dark
Yeah, so I can find my way back into your arms

Ooh I know where I belong
Right and wrong
Oh, so shine on me and light this endless dark
Shine on me, shine on me, shine on me and light this endless dark

Ooh shine on me and tame my burning heart
Yeah, so I can find my way back into your arms

Ooh shine on me and light this endless dark
So I can find my way back into your arms

So shine on me and light this endless dark
Shine on me and light this endless dark
