## HIM, In The Nightside Of Eden

Divided we stand in the light of a frozen sun Cursing the gods we have become

We steal the fire from a sacred heart And bleed the wine unholy We fall in love with the serpent's song And fear nothing

In the nightside of Eden We're born again dead Forever we are Forever we've been Forever we'll be crucified to a dream In the nightside of Eden

Deranged, we're tearing away the petals of desire Learning the mathematics of evil by heart

We deceive ourselves to start a war Within the realm of senses And descend to the circle number four Where we are nothing

In the nightside of Eden We're born again dead Forever we are Forever we've been Forever we'll be crucified to a dream In the nightside of Eden
