## HIM, Right Here In My Arms

She is smiling like heaven is down on earth Sun is shining so bright on her And all her wishes have finally come true And her heart is weeping. This happiness is killing her.

She'll be right here in my arms So in Love She'll be right here in these arms She can't let go [Repeat 2x]

So hard she's trying But her heart won't turn to stone... oh no She keeps on crying But I won't leave her alone She'll never be alone

She'll be right here in my arms So in Love She'll be right here in these arms She can't let go [Repeat 2x]

[bridge]
And she'll be right here in my arms
So in Love
She'll be right here in these arms
She can't let go
[Repeat 3x and fade out]
