

Hinder, Last Kiss Goodbye

It's calming down outside
Another lonely night
You said you were just going out with your friends
I'm waiting up this time, I hope you didn't lie
It never used to be like this way back when
I never know where you're at
Another train off the tracks
And I don't want to live like that

When you walked in so damn late
What the hell was I supposed to think?
When you've had too much to drink
And you're really looking guilty
When you wouldn't even look at me
There was only one thing it could be,
You were with him all this time
Here's one last kiss goodbye

No more alibis, no more inner lies
You've broken my trust and it can't be fixed
I should've seen the signs
Should've recognized
The way your lips looked like they've been kissed
How did we end up like this?
Another train off the tracks
It always hurts looking back now

When you walked in so damn late
What the hell was I supposed to think?
When you've had too much to drink
And you're really looking guilty
When you wouldn't even look at me
There was only one thing it could be
You were with him all this time
Here's one last kiss goodbye

Another lesson learned in life
And I can ask and listen why

How did we end up like that?
Another train off the tracks
It always hurts looking back now

When you walked in so damn late
What the hell was I supposed to think?
When you've had too much to drink
And you're really looking guilty
When you wouldn't even look at me
There was only one thing it could be
You were with him all this time
Here's one last kiss goodbye
