Hippos, Always Something There To Remind Me

I walk along the city streets you used to walk along with me And every step I take reminds me of just how we used to be Oh how can I forget you, girl When there is always something there to remind me Always something there to remind me

Shadows fall, I pass the small caf where we would dance at night And I can't help recalling how it felt to kiss and hold you tight How can I forget you, girl When there is always something there to remind me Always something there to remind me

I was born to love her And I will never be free You'll always be a part of me Woah woah wooah

If you should find to miss the sweet and tender love we used to share Just go back to the places where we used to go and I'll be there Oh how can I forget you, girl When there is always something there to remind me Always something there to remind me

I was born to love her And I will never be free You'll always be a part of me

When there is always something there to remind me

Always something there to remind me (repeat till end)
