

Hippos, Our Lips Are Sealed

Can you hear them?
Talk about us tellin' lies yeah well that's a surprise.
Can you see them?
see right through them
They have a shield
no secrets to reveal

Chorus
Doesn't matter what they say
In the challenges people play
our lips are sealed

There's a weapon that rumours use
when you look at them
look right through them
that's when they'll disappear
that's when we'll be feared

Chorus

They don't matter in what you say
it doesn't matter anyway
our lips are sealed

Hush my darling
don't you cry
Crying angel
before they get their lie

Can you hear them?
talk about us tellin' lies yeah well that's a surprise
