

Hippos, Say You Love Me

I've been waiting al this time
For you to realize
That no one suits you quite like me
And that's the way it should be
It should be
You and me
Together forever we'll be
I will not rest until you are with me
No I will not rest until you are with me
I swear
I swear
It's all that I need
I swear
I swear
It's all that I need
I saw you just the other day
I wish that I would hear you say
What you're doing
Maybe we could chill sometime?
You'll see
It should be
You and me
Together forever
I will not rest until you are with me
I swear
I swear
It's all that I need
I swear
I swear
It's all that I need
Say you love me
All and all is true
I still love you
Together forever we will be
I will not rest until you are with me
No I will not rest until you are with me
I swear
I swear
It's all I need
I will not rest until you are with me
No I will not rest until you are with me
I swear
I swear
It's all that I need
I swear
I swear
It's all that I need
Say you love me
