

# Hippos, The, Something

I hate to say it but your life is not right  
you sleep all day and watch tv all night  
you have your dreams, I know you have your dreams  
but it's about time you forgot all your dreams  
but I'm something, yeah I'm something  
you think you know me but you don't know nothing  
I've done it all, yeah I've done it all  
I'm just waiting for the right phone call  
can't you see? that you and me  
we share one or two similarities  
I had my dreams, you know I had my dreams  
sometimes I regret I forgot all my dreams  
but I'm something, yeah I'm something  
you think you know me but you don't know nothing  
I've done it all, yeah I've done it all  
I'm just waiting for the right phone call  
and I can't believe it  
the things that they say  
no I can't believe it  
will I ever make it they say no way
